They teach us about the history of the world through carefully curated exhibits ,perfectly preserved works of art and knowledgeable tour guides.

Importance of museums ? ? ?

Museums helps us to learn from the past.

Impression about museums day

It was the first time I had participated in such an event. At the past I didn't even know about what are museums Also I didn't really know what was in museums .to be honest I wasn't ve]]]]]ry interested in museums until I participated there. I wasn't interested in museums ,but after hearing all sorts of stories there ,I became even more interested in museums. Next time I would like to make time to go museums and learn about it more.
